Introduction

1.1 The University of Greater Manchester (**University**) Board of Governors has formal responsibility for the safeguarding of children and adults at risk (previously vulnerable adults) and for ensuring that this policy complies with the University's legal obligations, and that all those under the University's control comply with it. The Board of Governors have appointed two members to the role of Nominated Safeguarding Lead who, together with the Group Director of Safeguarding who is the interim Senior Designated Executive Safeguarding Lead, will act on their behalf to ensure that all members, students and employees of the University comply with the requirements of this policy.

Safeguarding and Protecting People

2.1 Safeguarding is the protection of people from harm. It includes the protection of children and adults at risk of harm and the prevention of those who are deemed unsuitable to work with them from doing so.

2.2 The University will take reasonable steps to ensure that its students and others who come into contact with the University, including children and adults at risk, do not, as a result, come to harm or are exposed to abuse and will be alert to and act upon situations where they may be caused harm.

2.3 The University acknowledges that it has statutory duties relating to the safeguarding of children and adults at risk, namely:

2.3.1 In respect of children (including everyone under the age of 18):

- (i) protecting children from maltreatment;
- (ii) preventing impairment of children's health or development;
- (iii) ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
- (iv) taking action to enable all children to have the best outcomes.

2.3.2 In respect of adults at risk:

- (i) protecting their right to live in safety and free from abuse and neglect, where as a result of their care and support needs, they are unable to do so themselves.

2.4 The University has a zero-tolerance approach to any forms of potentially harmful behaviour.

2.5 The University whilst not a health and care provider recognises the importance of and acts in accordance with the six principles of safeguarding first introduced by the Department of Health in 2011 but now embedded in the Care Act, these being:

- **Empowerment** – People being supported and encouraged to make their own decisions and informed consent.
- **Prevention** – It is better to take action before harm occurs
- **Proportionality** – The least intrusive response appropriate to the risk presented
- **Protection** – Support and representation for those in greatest need
- **Partnership** – Local solutions through services working with their communities. Communities have a part in preventing, detecting and reporting neglect and abuse
- **Accountability** – Accountability and transparency in safeguarding practices.

2.5.1 **Empowerment:** As with all safeguarding principles, the University recognises it's important to act in the best interest of the vulnerable person. Empowerment ensures their thoughts, feelings and opinions are taken in to account, unless they do not have capacity to make decisions as defined in the Mental Capacity Act 2005.

2.5.2 **Prevention:** It is important to be able to recognise the signs of abuse, harm and neglect. Advice and information regarding safeguarding will be provided by the University in an accessible format and communicated with others, so that any signs of potential harm or harm can be recognised and acted on as early as possible.

2.5.3 **Proportionality:** The University will ensure the way safeguarding support is provided and concerns are addressed is proportional to the risk presented.

2.5.4 **Protection:** University staff understand safeguarding processes, know how to make a referral/raise a concern and how to mitigate against harm.

2.5.5 **Partnership:** University staff will share concerns about those who are vulnerable with other organisations and the local community as long as it is necessary to keep someone safe.

2.5.6 **Accountability:** The University through implementation of this policy and procedure has clear roles and responsibilities.

Purpose Of Policy

3.1 The purpose of this Policy is to aid the University in fulfilling its statutory duties and minimise the risk of harm to children and adults at risk. This Policy forms part of the University's approach to safeguarding and protecting people and should be read in conjunction with the policy and procedures listed at 22.

3.2 The University will ensure that there are appropriate safeguarding policies, procedures and measures in place that are fit for purpose and reviewed annually. Furthermore, where the University's staff, students or visitors have concerns about the welfare of children or adults at risk, the University will ensure that they know what to do about those concerns and are quick to respond to such concerns.

3.3 This Policy has been approved by the Governing Body and is applicable to all members of staff and students as well as visitors to the University (where appropriate). The policy is available on both the student and staff webpages of the University Website.

3.4 Any and all incidents of alleged misconduct concerning safeguarding will be taken seriously by the University and may lead to disciplinary action against those involved.

3.5 Whilst the University is primarily a Higher Education Institution and as such staff are not routinely directly involved with children (i.e., those under the age of eighteen), there are a number of situations when University Staff and Students have direct contact with children, these may include:

these staff or students, concerns may arise regarding their children or other family members.

3.6 Where, as a part of their studies, a student is required to engage in a placement outside the University, they shall use the safeguarding arrangements applicable at that provider. The University will ensure as part of its assessment of placement providers that such a policy is in place.

3.7 Apprenticeships: Employers offering apprenticeships to university students will be made aware of who the relevant Designated Safeguarding Champion is within the Apprenticeship Hub at the University, in the event Employers need to share any concerns about a child or adult at risk of harm. The Head of Apprenticeships has responsibility for informing Employers of safeguarding arrangements at the University of Greater Manchester. The University will work with Employers accepting University students as apprentices in relation to training and to ensure appropriate safeguarding measures are in place.

3.7.1 Safeguarding, PREVENT and British Values are key themes discussed with apprentices at their quarterly review meetings, apprentices can also discuss such topics with their employers;

3.7.2 In addition, apprentices will be provided with information on Safeguarding, PREVENT, Bullying, Harassment, Victimisation and Sexual Misconduct at their induction;

3.7.3 The University has developed four online tutorials for all students including apprentices on Safeguarding, PREVENT, British Values and Sexual Consent, it is expected all apprentices will complete these online tutorials during their studies;

Statement on Freedom of Speech and Academic Freedom:

The principles of academic freedom and freedom of speech within the law (and our equalities duties) are very much embedded in the University Teaching Intensive, Research Informed Assessment Enabled (TIRIAE) philosophy and our organisational culture. They provide a basis for providing all members of the University community with the opportunity to think critically and engage with diverse perspectives whilst at the same time enable the University to drive forward research and innovation – as we advance knowledge, understanding and truth.

The University of Greater Manchester takes its responsibility to protect and promote both freedom of speech and academic freedom, strengthened by the Higher Education (Freedom of Speech) Act 2023, seriously and the principles are embedded into our key people policies, procedures and practices.

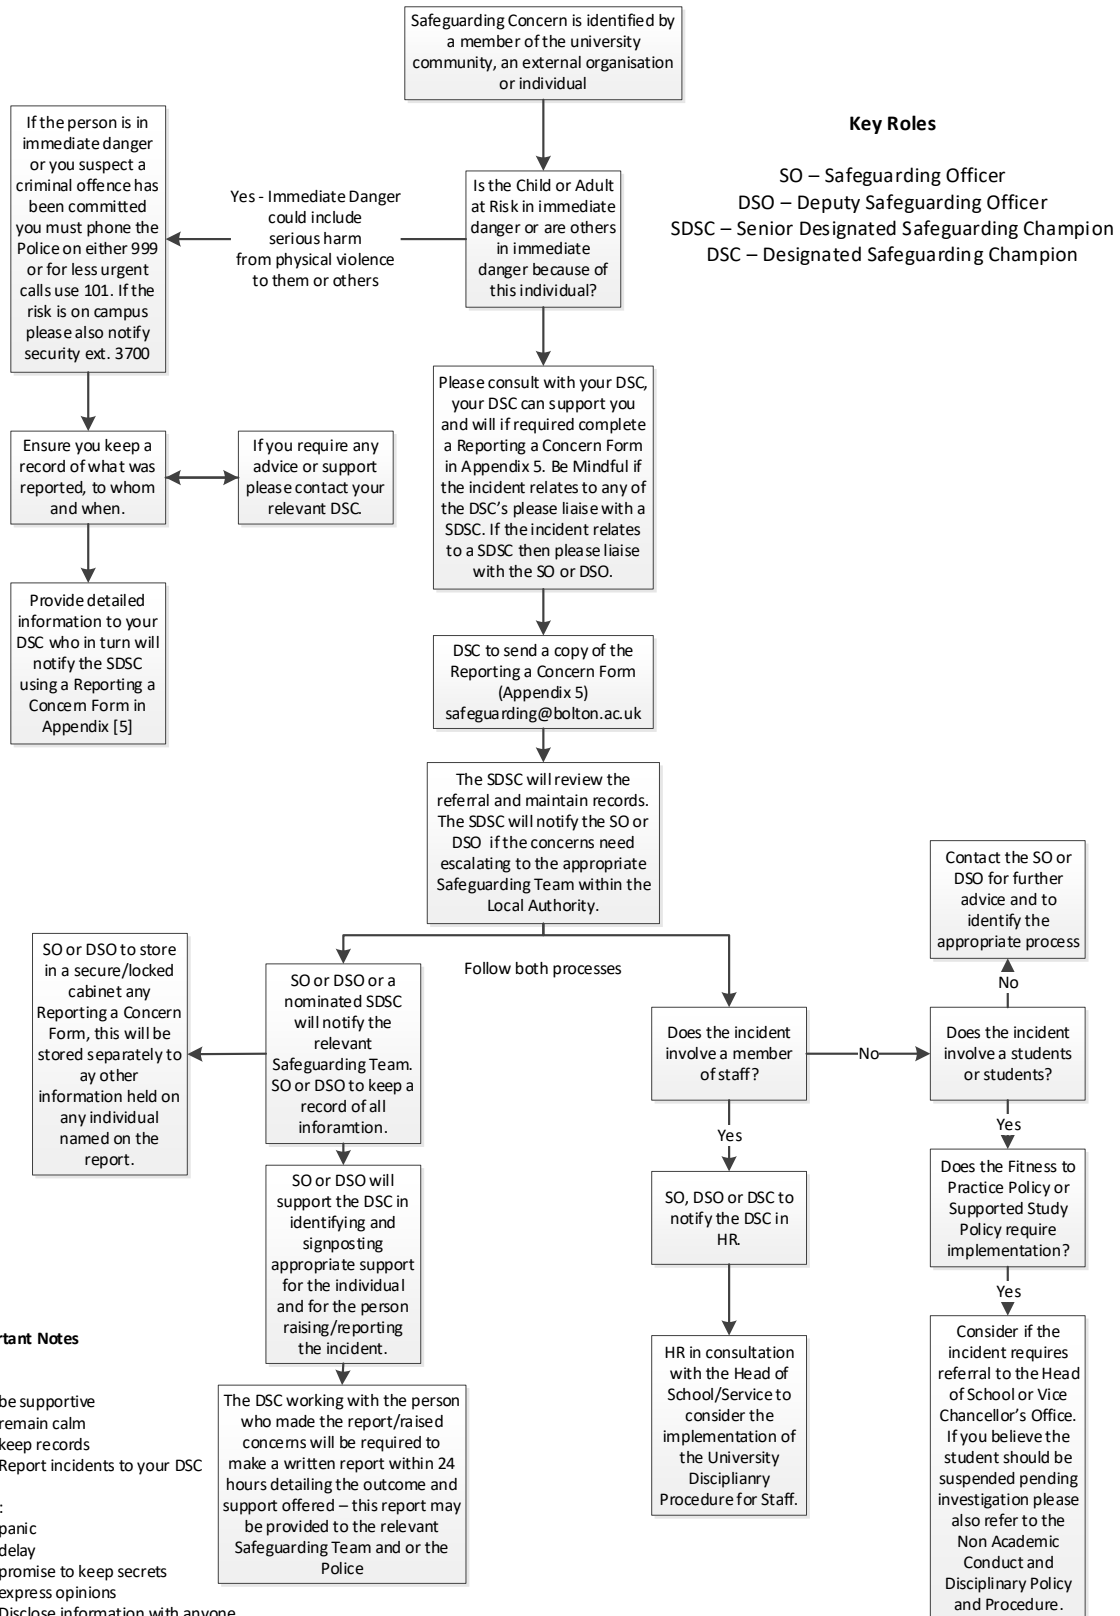

All members of the University community at all levels within the University have an obligation to understand, uphold and promote these principles. The University provides training / support and other resources to employees in support of this agenda. Any colleague who is not clear on these obligations should speak with their respective Head of Service / School.

The University will investigate and take both reasonable and proportionate action with respect to any allegations that go against these fundamental key principles. Where breaches by staff are uncovered the University will take action under the Disciplinary Procedure (or other appropriate procedure), which if allegations are proven could result in a sanction up to and including dismissal or expulsion.

Equality Check

23.1 The University is committed to the promotion of equality, diversity and a supportive environment for all members of our community. Our commitment to equality and diversity means that this policy has been screened in relation to the use of plain English, the promotion of the positive duty in relation to the protected characteristics of race, sex, disability, age, sexual orientation, religion or belief, gender reassignment, marriage and civil partnership, pregnancy and maternity.

Definitions of Abuse (Guidance: non-exhaustive lists)

Children

Abuse

1 Abuse is a form of maltreatment and can take a number of forms. Somebody may abuse or neglect a person by inflicting harm, or by failing to act to prevent harm. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. There are four categories of abuse which are relevant for the purposes of registration on the child protection register and these are:

1.1 **Physical abuse** is a form of abuse which may involve:

- (i) beating;
- (ii) hitting;
- (iii) pushing;
- (iv) shaking;
- (v) kicking;
- (vi) throwing;
- (vii) pinching;
- (viii) biting;
- (ix) choking;
- (x) hair-pulling;
- (xi) burning with cigarettes, scalding water or other hot objects; or
- (xii) severe physical punishment.

Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

1.2 **Sexual abuse** involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening and which may involve:

- (i) Fondling, touching or kissing a child's genitals or making a child fondle an adult's genitals;
- (ii) violations of bodily privacy, such as forcing the child to undress or spying on a child in the bathroom or bedroom;
- (iii) using a child in the production of pornography, such as a film or magazine or exposing children to pornography;
- (iv) luring a child for sexual liaisons, through the internet or by any other means; or
- (v) sexual exploitation such as using a child to perform sex with others or sexual acts with a child, penetration, intercourse, incest, rape, oral sex.

1.3 **Neglect** is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse or, once a child is born, it may involve:

- (i) failing to provide adequate food or clothing;
- (ii) failing to protect a child from physical and emotional harm or danger;
- (iii) failing to ensure adequate supervision, including using inadequate people to provide care;
- (iv) failing to ensure access to appropriate medical care or treatment; or
- (v) being unresponsive to a child's emotional needs.

1.4 **Emotional abuse** is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development and which may involve:

- (i) ignoring;
- (ii) withdrawal of attention;
- (iii) rejection;
- (iv) threatening or frightening;
- (v) serious bullying (including cyberbullying);
- (vi) belittling such as telling the child he or she is “no good”, “worthless”, “bad”, or “a mistake”;
- (vii) using extreme forms of punishment, such as confinement to a closet or dark room; or
- (viii) witnessing the physical abuse of others.

2 The above definitions, provided for guidance purposes only, indicate acts (or omissions) which may constitute abuse. They are as relevant in the context of vulnerable adults as they are with children. They should not be considered exhaustive and if any member of university staff, student or visitor to the University (where appropriate) has any concerns about a child or vulnerable adult they should raise these concerns with the appropriate individual in accordance with these procedures.

University of Greater Manchester Safeguarding Commitment Statement

The University of Greater Manchester is fully committed to safeguarding the welfare of all members of its community, students including but not limited to those pursuing apprenticeships, undergraduate, postgraduate taught and postgraduate research and staff, irrespective of any protected characteristic such as gender, age, disability, sexual orientation, race, language, religion, ethnic or social origin. Safeguarding of our community extends to those students and staff who may work or study away from the university campus for instance those university staff and students at satellite centres such as Petroc College or Bradford College and those university staff and students who work or study at Shockout, Manchester. The University is mindful of the particular safeguarding duties owed to specific vulnerable groups. In all its activities the University aspires to promote the safety and wellbeing of all members of its community.

The University also has an obligation to protect its members from the risk of radicalisation in accordance with the PREVENT duty.

As a Higher Education provider, we recognise our responsibilities to take all reasonable steps to protect people from harm, abuse, neglect and/or exploitation.

All staff, students and volunteers with the University will endeavour to safeguard people by:

- Making members of the University community aware that we take protecting them and the public seriously and will respond to safeguarding concerns;
- Working together to encourage an ethos which embraces difference and diversity;
- Respecting and empowering people to be safe from harm and/or abuse;
- Recognising and reducing the risk to people experiencing domestic abuse;
- Sharing information about concerns with agencies who need to know and involving people appropriately in that sharing;
- Following national and local safeguarding children and adults policies and procedures including safe recruitment of all our staff;
- Providing effective management for our staff by ensuring they have access to supervision, support and training as appropriate to their identified need;
- Supporting people to make their own decisions and by making best interests decisions for those who cannot make decisions for themselves;
- Working with employers of apprenticeship students and those on placement to ensure the employer is aware of our safeguarding arrangements, how to share a concern/make a referral and what support is available to any student studying at the University of Greater Manchester.

The University is committed to working within agreed policies and procedures and in partnership with other agencies. The safety and welfare of children and adults at risk who come into contact with our services either directly or indirectly are paramount, and all staff have a responsibility to ensure that the University Safeguarding Policy and Procedure is followed, including compliance with statutory requirements.

Almost all members of the University community are adults and, therefore, the University expects and enables them to act appropriately and take responsibility for their actions, within the confines of the University's policies and procedures.

The University whilst not a health and care provider recognises the importance of and acts in accordance with the six principles of safeguarding first introduced by the Department of Health in 2011 but now embedded in the Care Act, these being:

- **Empowerment** – People being supported and encouraged to make their own decisions and informed consent.
- **Prevention** – It is better to take action before harm occurs.
- **Proportionality** – The least intrusive response appropriate to the risk presented
- **Protection** – Support and representation for those in greatest need.
- **Partnership** – Local solutions through services working with their communities. Communities have a part in preventing, detecting and reporting neglect and abuse
- **Accountability** – Accountability and transparency in safeguarding practices.

The University of Greater Manchester's Safeguarding Policy and Procedure details our approach to safeguarding and can be found on the website.

For information or to share a safeguarding concern please email safeguarding@greatermanchester.ac.uk.

Appendix 10

University of Greater Manchester Guidance on Raising and Reporting Low-Level Safeguarding Concerns and Supporting Students and Staff with Pastoral and Welfare Related Issues

Purpose Of Guidance

1.1. Keeping Children Safe in Education 2024 notes the importance of creating a culture in which all concerns about adults (including allegations that do not meet the harm threshold) are shared responsibly and with the right person.

1.2 Concerns which do meet the threshold if deemed a Safeguarding concern would be reported and dealt with in accordance with the University's Safeguarding Policy and Procedure.

1.3 The term low-level concern is sometimes incorrectly applied to students and staff experiencing pastoral and or welfare related issues. This guidance should support staff in distinguishing between the two and in responding to both.

Who is this Guidance for?

2.1 All adults (staff, students and volunteers) whose work will involve contact with children i.e., those under the age of 18 and/or adults at risk (previously vulnerable adults), this includes students on placement and apprentices in employment who work with children and adults at risk.

This guidance should be read in conjunction with the University of Greater Manchester Safeguarding Policy and Procedure which details in full the University's full responsibilities in relation to safeguarding children and adults at risk and confirms how to raise a safeguarding concern.

In addition, the following policies and procedures should be read in conjunction with this guidance:

- Staff Disciplinary Procedure
- Student Non-Academic Conduct Policy and Procedure
- Student Fitness to Practice Policy
- Student Health, Wellbeing and Supported Study Policy (HWSS)
- Public Interest Disclosure Policy

What are Low-Level Concerns

3.1 Keeping children Safe in Education 2024 identifies a low-level concern as any concern, no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt' that an adult working on or on behalf of the University including a student on a placement or an apprentice in employment may have acted in a way that is inconsistent with our policies and procedures and relevant codes of conduct as identified above. This could include inappropriate behaviour outside of work.

3.2 A low-level concern may not meet the 'harm threshold' for referral to the Local Authority Designated Officer (LADO) or to other statutory safeguarding partners. The harm threshold is an allegation that means that a person who works with children/adult at risk has:

- behaved in a way that has caused harm, or may have caused harm
- possibly committed a criminal offence against or related to a child/adult at risk; and/or
- behaved towards a child or children/adult at risk in a way that indicates they may pose a risk of harm to children/adult at risk; and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children/adult at risk.

Examples of low-level behaviour would include, but is not limited to:

- Not adhering to professional standards/codes of conduct relevant to the role/workplace including but not limited to placements
- Observing someone not adhering to codes of conduct and or codes of practice in relation to their work with a child or adult at risk e.g., a student nurse on placement not adhering to professional practice
- Being over friendly with children or adult at risk, not applying boundaries in terms of relationships
- Having favourites
- Taking photographs of a child/adult at risk on a personal mobile phone
- Engaging with a child on a one-to-one basis in a secluded area
- Humiliating the individual
- Using discriminatory language including language which may cause offence or inappropriate sexualised or intimidating language
- Inappropriate conduct outside of the workplace
- Inappropriate touching of a child or adult at risk

3.3 Low level concerns may arise as a result naivety, be accidental or unintentional, be the result of misinformed action, a failure to follow procedures, a lack of training or, more rarely, deliberate abuse.

Reporting a Low-Level Concern

4.1 The University has a legal duty to keep children and adults at risk safe and protect them from abuse/harm. The reporting of a low-level concern i.e., the behaviour of a staff member employed at the University, a contractor employed on behalf of the university, an official visitor, student on placement or an apprentice in work could be an opportunity for training and process improvement not dissimilar to "near miss" reporting applied to the broader health and safety of the University community.

4.2 Individuals raising a concern do not need to determine if it meets the harm threshold, but they do have an obligation to raise any safeguarding observation as part of our proactive safeguarding culture.

4.3 Individuals may self-refer an issue of concern. The raising of low-level concerns is a professional dialogue in line with good practice and should provide opportunities for shared learning. It is an important step if the adult has found themselves in a situation which could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards.

4.4 **Who to report to** (See Appendix 10.1)

Concern relates to:	Report to:
Member of staff employed by the University	HR@greatermanchester.ac.uk
Contractor working on behalf of the University	HR@greatermanchester.ac.uk
Student on placement	safeguarding@greatermanchester.ac.uk
Apprentice	safeguarding@greatermanchester.ac.uk
Students who volunteer	safeguarding@greatermanchester.ac.uk

Students attending our partner centres with concerns can contact their centre directly on:

- ✚ Salford City College: Alexander.Kronenburg@salfordcc.ac.uk
- ✚ Regent College: rclsafeguarding@rcl.ac.uk
- ✚ UoBM: Wellbeing@manchester.bolton.ac.uk
- ✚ Bradford satellite Centre: Bradfordcampus@greatermanchester.ac.uk
- ✚ Growth Company: safeguarding@growthco.uk
- ✚ Shockout: TBC
- ✚ Petroc: A.Mason@greatermanchester.ac.uk

4.5 **Information to report/include with the email referral**

Reports should:

- provide a concise record including a brief context in which the low-level concern arose
- include details of who was involved
- include details of witnesses
- include dates, time, location
- include details of what you feel is unprofessional behaviour/conduct

- include details which are chronological, and as precise and accurate as possible of any such concern and relevant incident(s)

If in doubt if the concern is a low-level safeguarding concern or a safeguarding concern, please complete the Safeguarding Referral form available in Appendix 5 of the Safeguarding Policy and Procedure. A member of the Safeguarding Team will then make an informed decision if the referral constitutes a safeguarding concern/allegation or a low-level safeguarding concern, in accordance with section 4.6 and 4.8.

Reports should be made in a timely fashion, within one working day of the incident.

4.6 Responding to a report

On receipt of a report the following actions may be taken:

- speak to the person who raised the concern
- speak to any potential witnesses (unless advised not to do so by the LADO or equivalent professional and/or other relevant external agencies, where they have been contacted)
- speak to the individual about whom the low-level concern has been raised (unless advised not to do so by the LADO or equivalent professional and/or other relevant external agencies, where they have been contacted)
- review the information and determine whether the behaviour:
 - i. is consistent with relevant code of conducts/expectations of the university
 - ii. constitutes a low-level concern
 - iii. is not serious enough to consider a referral to the local authority/external safeguarding partners – but may merit consulting with and seeking advice from them
 - iv. when considered with any other low-level concerns that have previously been raised about the same individual, could now meet the threshold of an allegation and should be referred to the LADO or equivalent local authority external safeguarding partners
 - v. in and of itself meets the threshold of an allegation and should be referred to the LADO or equivalent local authority professional.

4.7 Staff receiving reports of low-level concerns may be required to seek advice and share information with their manager, the employee's manager, the students Head of School or Dean of Faculty, staff from the Safeguarding Team, the Apprenticeship Team, the placement provider or employer for apprentices. Information will only be shared on a need-to-know basis, to support decision making, inform of next actions/implementation of other policies or training and to support individuals involved.

4.8 When receiving a Low-Level Concern, the University of Greater Manchester will:

- ensure all concerns that are raised are handled sensitively and proportionately
- aim to respond to all concerns raised within two working days
- undertake to weigh up information in order to distinguish between unprofessional behaviour and intentional harm or abuse i.e., establish if it is a low-level safeguarding or a safeguarding concern which would be dealt with in accordance with the University of Greater Manchester's Safeguarding Policy and Procedure
- identify concerning, problematic or inappropriate behaviour – including any patterns – that may need to be consulted upon with, or referred to, the local authority dedicated officer (LADO) or equivalent safeguarding partner/officer
- focus on the behaviour, not the language used to describe or report it
- address unprofessional behaviour and support the individual to correct it at an early stage
- identify any areas for development in our safeguarding system as well as any training needs
- review the report against the relevant staff or student policies as listed earlier in this guidance. The instigation of these policies may be required depending on the nature of what was reported.

4.9 Records should be retained locally by the person receiving the report in a safe, secure and confidential manner. Records will be kept confidential (shared only on a need-to-know basis) and will be held securely and comply with the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR). Records will also include all actions taken plus the rationale for the decisions made. Such records may be made available to other organisations as required noting this is a non-exhaustive list:

- Regulatory bodies such as the Office for Students and or Ofsted
- University Insurers
- Health and Safety Executives
- Other University staff as required e.g., Head of School, Personal Academic Tutor, Programme Lead or Line Manager

4.10 Records will be retained for the duration of the persons employment or studies and for 6 years beyond the completion of this.

Further Advice on Low-Level Concerns

5.1 If your concern relates to a potential Low-level Safeguarding Concern for a university employee or university volunteer further advice is available from your Head of Service, Head of School, Dean of Faculty or Human Resources.

If your concern relates to a potential Low-level Safeguarding Concern for a student including apprentices you can speak with your Designated Safeguarding Champion, a Senior Designated Safeguarding Champion, Deputy Safeguarding Officer, Safeguarding Officer, Head of School, Dean of Faculty or colleagues in the Standard Enhancement Office.

Student Pastoral and Welfare Issues

6.1 The Department of Education (DfE) states that universities currently have a general duty of care to deliver educational and pastoral services to the standard of an ordinarily competent institution and that in doing so they are expected to act reasonably to protect the health, safety and welfare of their students. This can be summed up as providers owing a duty of care to not cause harm to their students through the university's own actions.

6.2 When staff become aware of a student experiencing pastoral or welfare related issues, they should look to support the individual to the best of their abilities, recognising professional boundaries and signposting or referring to specialist professional support services as required. Records of support provided, advice given, signposting or onward referrals should be retained locally by the staff providing this advice. Academic colleagues can retain such records using Pulse, see 6.5.

6.3 All students are allocated a Personal Academic Tutor (PAT). The aim of the PAT is to support students achieve their academic and personal aspirations. PATs are able to advise students on academic issues and pastoral issues including those affecting a student's health or wellbeing.

6.4 Students will often seek pastoral support from staff with whom they have built a relationship or have regular contact, this could include academic staff who are not Personal Academic Tutors.

6.5 All advice of a pastoral nature given by academic colleagues should be logged in Pulse unless it is sensitive. If the advice is of a sensitive nature a record should be entered in to Pulse that summarises that confidential advice has been given and whom can be contacted for further information on a need-to-know basis.

6.6 All academics including PATs can refer students to professional support services.

6.7 All students have access to additional professional support services including:

- Life Lounge (Student Mental Health and Wellbeing)
- Disability Team
- Student Funding
- Student Advisors
- International Student Advisor
- Library including Academic Liaison Librarians, Learning Excellence Achievement Pathway (LEAP) Online and Live
- Careers Service and Jobs for Students

- Chaplaincy
- Students' Union

6.8 In the event a pastoral or welfare related issue is reported to the Senior Designated Safeguarding Champions, Deputy Safeguarding Officer or Safeguarding Officer via safeguarding@greatermanchester.ac.uk or a Designated Safeguarding Champion Safeguarding Reporting Form and the concern does not constitute a safeguarding concern then the following actions may be taken.

- the person making the report will be offered advice on how best to support the individual for whom a concern has been raised
- if appropriate the person for whom a concern has been raised may be contacted directly by a member of the safeguarding team.

Staff Pastoral and Welfare Issues

7.1 The University takes the health, safety and wellbeing of its staff seriously and understands that safeguarding issues can affect the wellbeing of staff involved.

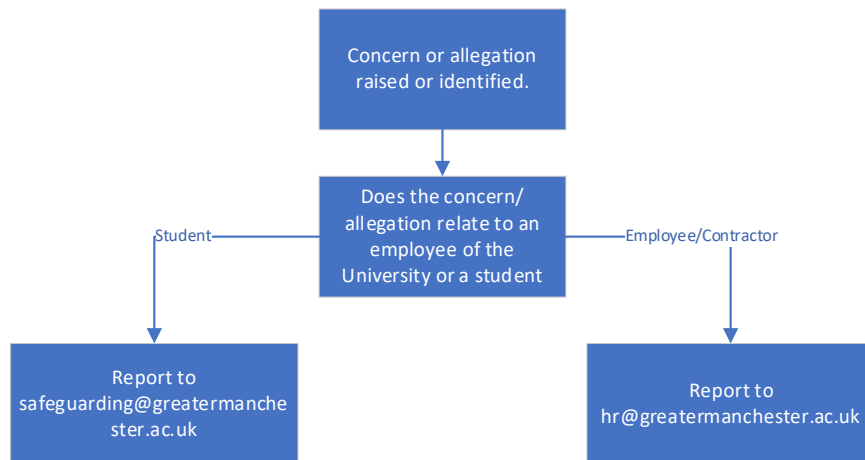

7.2 Staff should never be afraid to ask for appropriate advice and guidance if they are unsure of what action to take. Confidential advice can be given by the relevant local Designated Safeguarding Champion, Heads of School/Service or relevant HR Safeguarding Champion. Further details are contained in the Safeguarding Policy as updated from time to time.

7.3 Staff affected by any aspect of any low-level safeguarding case/process can also access the University Employee Assistance Programme provider, Spectrum Life. The contact details can be found via the HR A to Z.

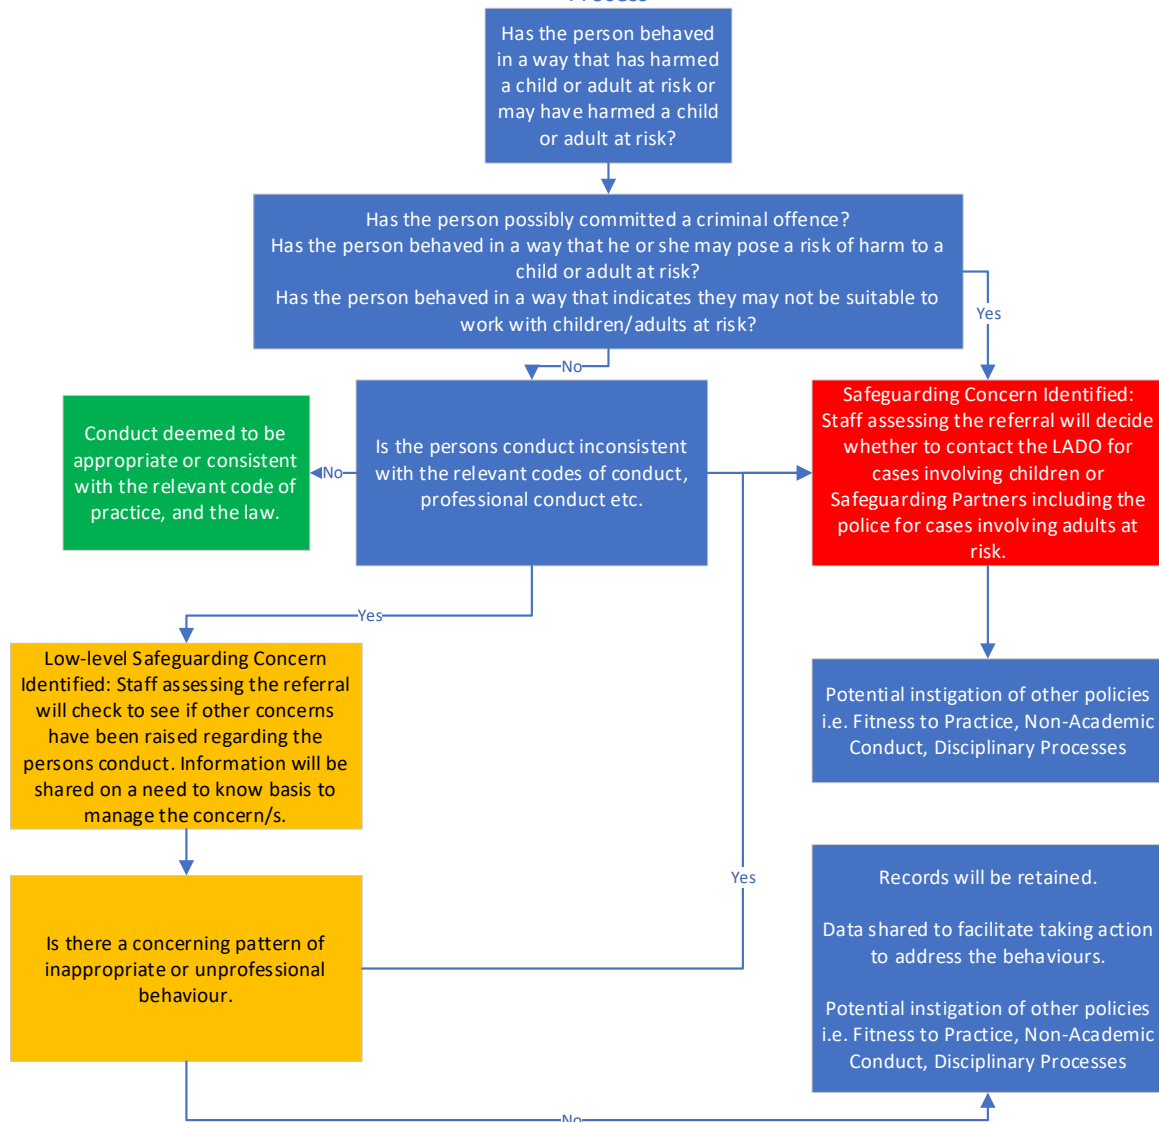

7.4 If it is alleged that a member of staff has breached any aspect of this guidance or the Safeguarding Policy an investigation may be carried out in line with the staff disciplinary procedure.
