

Window Cleaning

The University of Greater Manchester has an annual window cleaning contract with Ultra Clean.

The contractor uses safe systems of work that include reach and wash systems, ladders and where necessary, abseiling.

University buildings receive either an annual external and or internal window clean.

In addition to this the contractor carries out the cleaning of University roof gullies to ensure that all roofs are clear of water.

2025 - 2026 Window Cleaning Schedule

- 1) Medical Science Building – February 2026
